Capital Improvement Plan

Staff has been working on the Capital Improvement Plan and would like to discuss this proposed plan in detail with the Council. Some areas to discuss as part of this plan include long range plan for 10th Avenue South, Rivers Edge Park Phases, Amphitheater, and assessment policies on street improvements. Keep in mind that this plan is a living document that can change with time but will help us guide our future projects as we move forward. The plan will be presented at the meeting for your review. We hope to finalize this in the next month and then have it formally adopted as part of our 2017 budget and levy on December 19th.
